## Simplifying day-to-day scheduling

Powerful set of features for automatically managing all your tasks and events with a click of a button.

[Sign in with Google!](#)

### Sync

Connect with Google Calendar to automatically retrieve all your events from multiple calendars.

### Schedule

Allow Skye to magically schedule all your events in one place based on priority and multiple other factors.

### Side Kick

Ask Skye if you can fit in another event without interfering with other events.

### Upcoming Features

- **SplitUp** - Some tasks can be done in multiple parts so why not split them up for maximum scheduling capability!
- **Analytics** - Determine how much more or less time it takes you for certain events than the planned event time
- **Synchronize** from other desktop applications
- **Work Offline**
